

## Letter from the CEO's desk

As we celebrate our 12<sup>th</sup> year Anniversary at Allzone Management Solutions, I want to sincerely thank to all our clients and the staff for being part of this amazing company.

This incredible moment made us look back, in 2005 we started the company with a small team of founders with just ONE project. My Founders and I have been fortunate to build so many great relationships and have countless memorable experiences over these 12 years.

We are also looking forward to the next 12 years at Allzone as we continue to invest heavily in our people and technology to ensure we continue to provide the best services to our clients worldwide. We are already planning a significant expansion this year and with your continued support, I am certain the next 10 years will be better.

When we began in 2005, we started with approximately less than 15 employees and a least market share, as measured by assets under administration. Since then, we've grown to become a leading provider of Healthcare services in the US market and e-Publishing services worldwide reaching a considerable position with more than 500 employees today.

Our core philosophy: commitment to client service excellence remains steadfast since the beginning. And as the client needs continue to grow and evolve, Allzone will work in partnership with them, to understand their needs, and deliver on our commitments.

We continue to build strong, lasting relationships as the key to our mutual success.

We are proud of all we have accomplished over the last ten years, we are excited and energized as we enter our next decade with all your continual support, I am certain the next 10 years will be better than the last.

**WENDY CHO**  
Chief Executive Officer
